

Pioneer Press

October 2015

No School For Students on Friday, October 16th!

OSD staff will be attending training around the district.

Drop-Off/Pick-Up

We appreciate your cooperation when dropping off or picking up your child at school. The drop-off/pick-up loop at Pioneer is tight, especially with so many students coming to school in private vehicles. Your careful attention to “who and what” is around you when pulling in and leaving the area is critical for everyone’s safety. Also, thank you for being careful to watch out for the crosswalk patrols...student patrols and adult patrols.

Special Parking Spaces

Please be aware that two parking spaces, with signs posted, were purchased by two Pioneer families during last spring’s PTA Fundraiser Auction. Please leave these spots open for their use this school year. Thank you!

Emergency Safety Drills

Safety drills are scheduled one day per month (fire, earthquake, lockdown). Families, please be assured that the Pioneer staff are sensitive to the importance of how they carefully and clearly communicate to students the reasons for the various drills and what students are expected to do. Pioneer’s September fire drill was exceptionally done by students and staff. This morning, Pioneer participated in the state-wide earthquake Shakeout Drill. Great job, everyone! Tomorrow morning Pioneer teachers will be in training with Detective Chuck Liska who will provide additional training per personal safety and school lockdown responses. Thank you, Detective Liska, also a Pioneer parent!

Request from Pioneer Librarian

In order to preserve and protect our valuable library book collection, please be sure that students place their books in backpacks when coming to school or going home. This will protect books from the weather, getting lost, or the “dog eating it”! Students, please be responsible and take care of our books.

Thank you, Ms. McQueen
